LIFE PULSE

Most people know what to do. They just don't know how to do it. We help people focus on what they *should* focus on and how to do what they *should* do.

We show clients how to experience a perpetual cycle of success by leveraging structure to re-engage intention on a daily basis. Although the cycle is foundational, the approach and application change based on each client's needs and wants.

FIGHTING FOR FAMILIES AFFECTED BY RARE DISEASE

When our daughter Natalie got diagnosed with this ULTRA rare pediatric condition (PyroxDI) the doctors said there was nothing we could do. As you likely can tell from this presentation, that is not an answer we were willing to accept.

We found out that over **30 MILLION** people fight rare diseases in the US. Of those that are diagnosed with pediatric rare diseases, 35% do not make it past the age of 5 and **95% of those conditions have no FDA approved treatment options.**

We knew Natalie was rare (the 17th person to be diagnosed), but when we saw those stats we realized rare was more common than we think. We felt called to help not only our daughter, but the millions of others fighting for possible.

We need YOUR help today.

Take Part Foundation is a 501(c)(3) that allows anyone to "take part" in fighting for possible. We identify existing medical research for rare pediatric conditions that likely will not be able to find funding elsewhere, and fund it until it reaches the point where the research team can apply for funding from larger organizations and foundations. Take Part is also committed to assisting and equipping families, like yours, who have a little warrior with a rare medical condition by giving them a platform to share their story and providing beneficial resources to help your family in the fight - like warrior profiles, emergency prep info, and more.
